SHELTON HIGH SCHOOL  
SHELTON, WASHINGTON

Throughout the past years, we as students, have tried to achieve our goals whether they have been personal or academic. We want to know if what we do today will lead us closer to our goals, or set us back still further. So, having witnessed our past, and in living the present, we, the Senior class of 1974, dedicate our Saghalie to the future.

For our world, the circle turns again:  
Throughout the year, we've seen the seasons change.  
It's meant a lot to me to start a new  
Oh, the winters cold, but I'm warm with you.  
Outside there's not a sound to be heard,  
And the seasons seem to sleep upon their words.  
As the waters freeze up with the summer's end.  
Oh it's funny how young lovers start as friends,  
Yes, it's funny how young lovers start as friends.

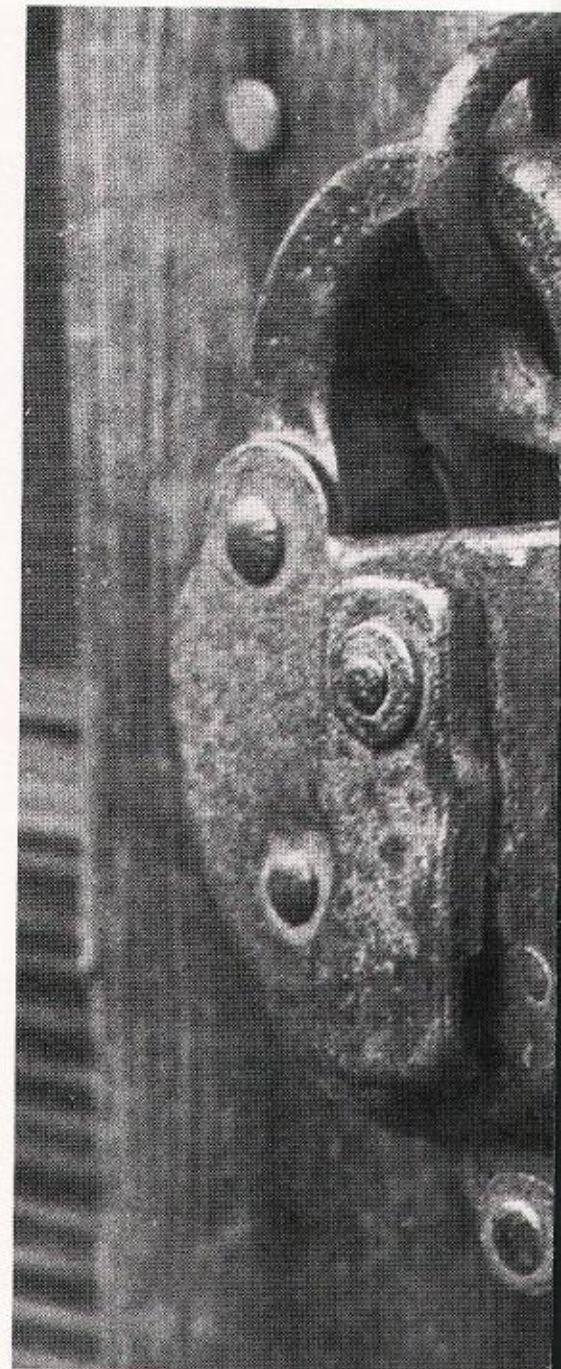

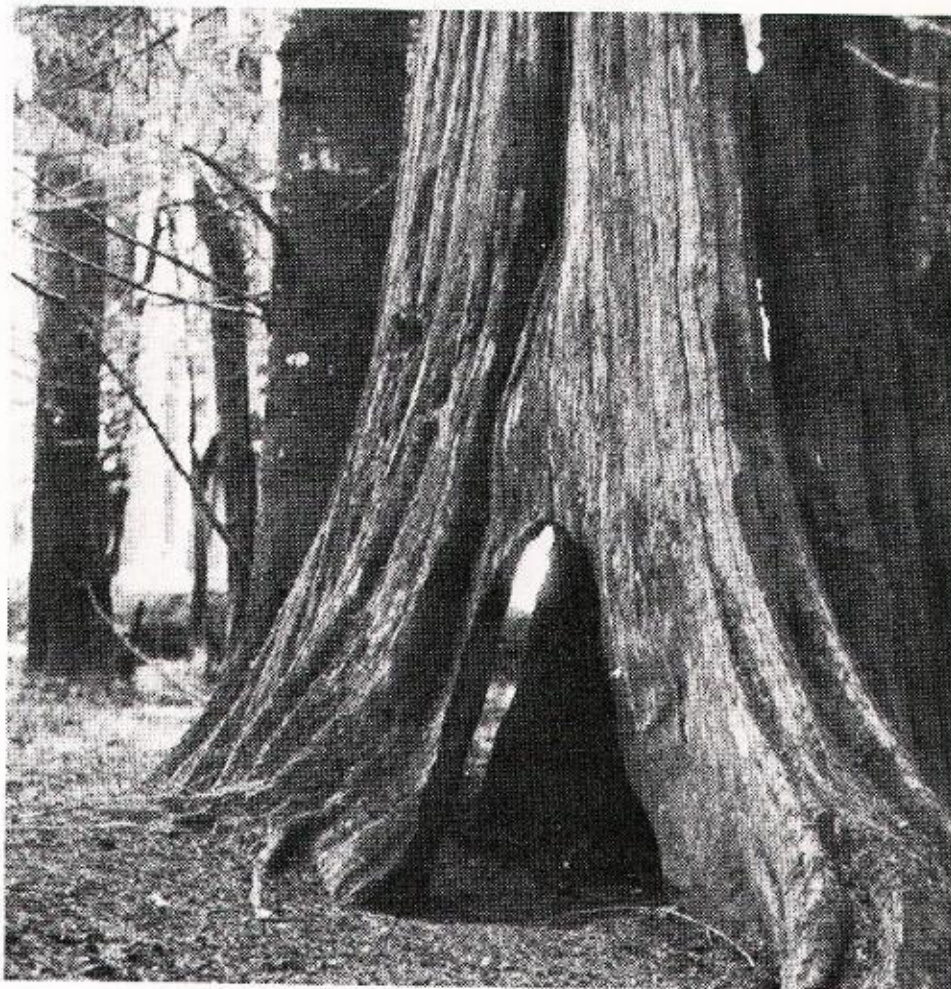

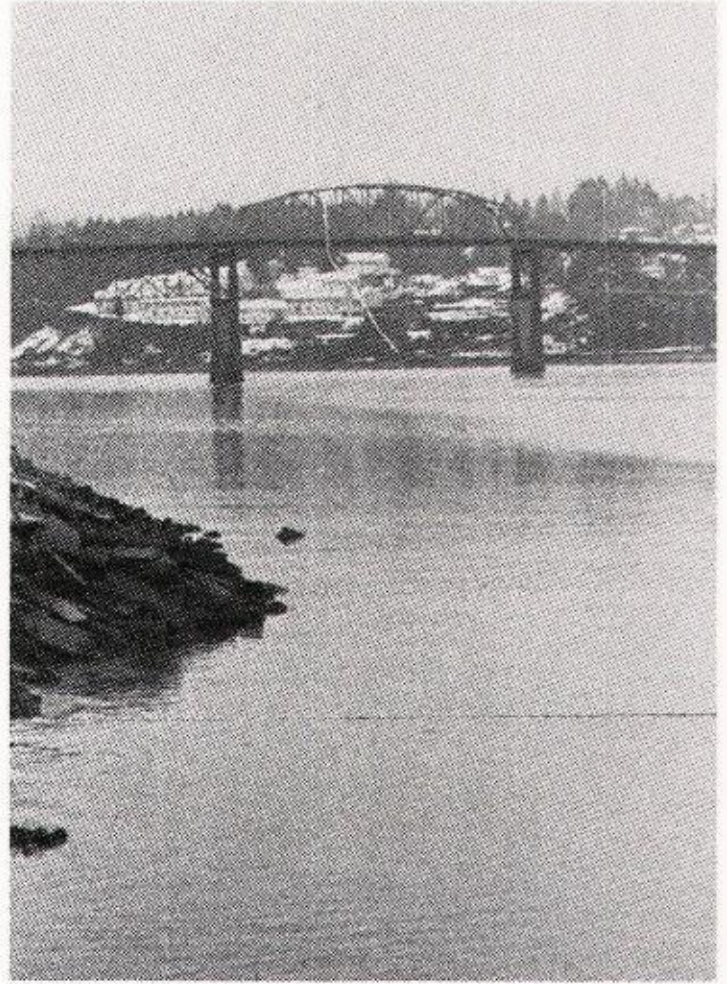

There are places I'll remember all my life  
though some have changed.  
Some for ever, not for better  
Some have gone, and some remain.  
All these places have their moments  
for lovers and friends I still can recall  
Some are dead and some are living  
In my life, I've loved them all.  
-The Beatles

Remember how the Sunday  
Morning bells were ringing,  
and out along the waterfront  
we'd hear the big men singing  
In some long-forgotten time,  
some August or July.  
Even then we'd talk about  
the times gone by.  
-Rod McKuen

The 1973 Highclimbers became the first team to repeat as Black Hills League Champions. This year's squad was a hard hitting, high scoring team that swept through the regular season undefeated (9-0) and ran their unbeaten in league play string to 16 straight dating back to 1971. The 9 and 0 regular season mark is the best ever record surpassing the 1956 8-0 year. The Climbers were in the top 5 all year and were ranked as high as 2nd, while finishing 3rd in the State polls. In the State Playoffs Central Kitsap (ranked no. 1 by the UPI) took a hard fought 7-6 win over the red and black.

You wonder how they do it and you look to  
 see the knack,  
 You watch the foot in action, or the  
 shoulder, or the back,  
 But when you spot the answer where the  
 higher glammers lurk,  
 You'll find in moving higher up the  
 laurel covered spire,  
 That most of it is practice and the  
 rest of it is work.

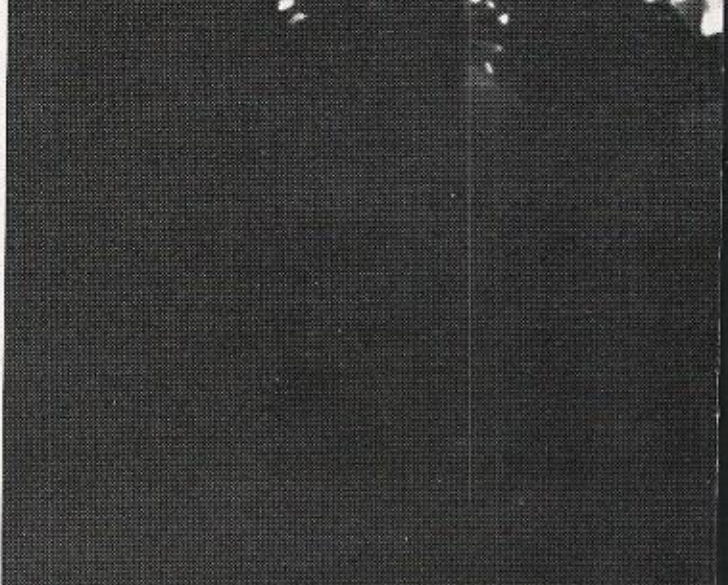

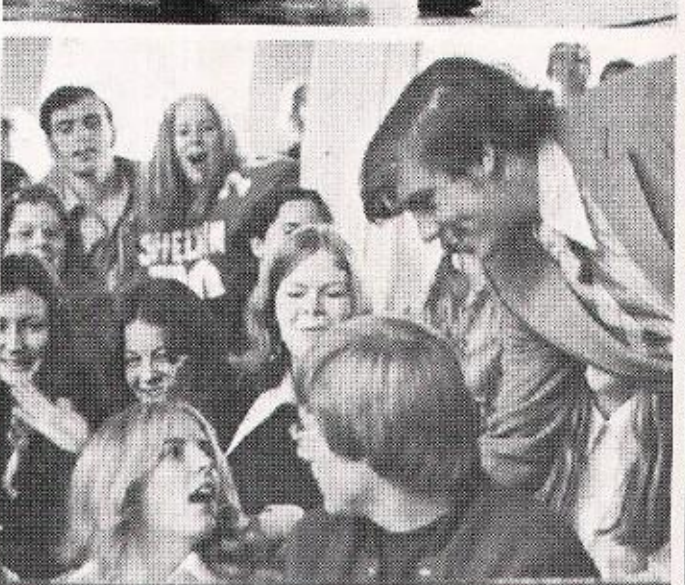

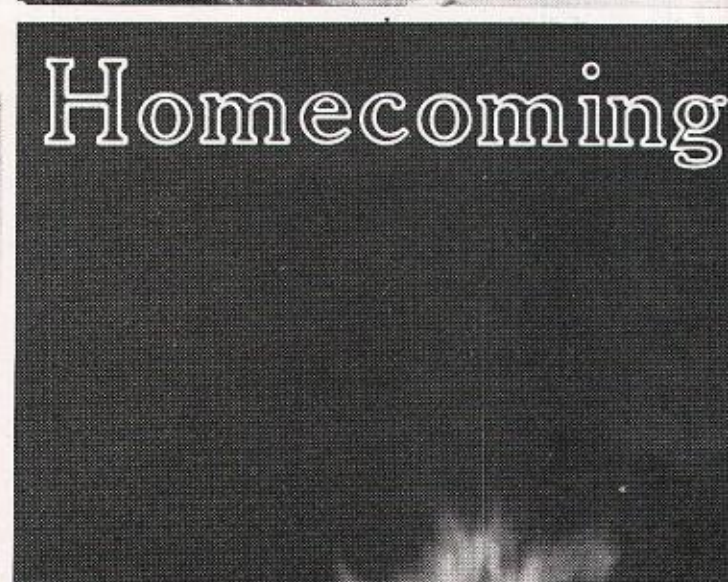

-Grantland Rice

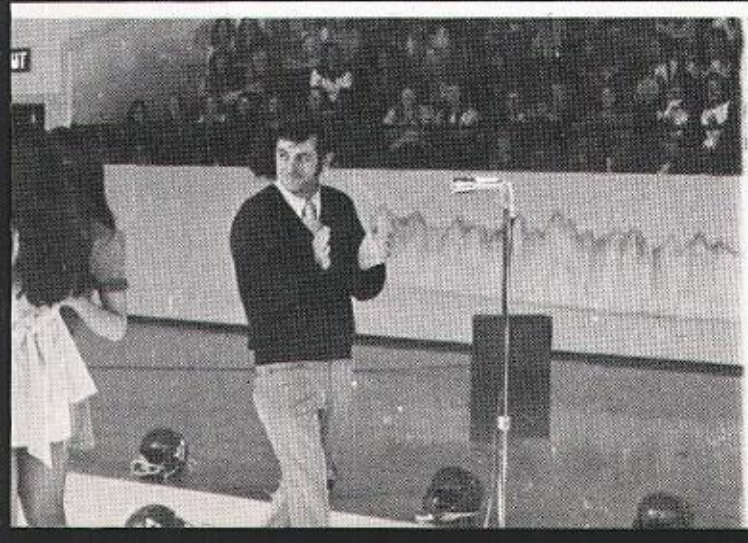

# Homecoming

Reigning over the festive events were Princesses Diane Crow and Kathy Wittenburg and Queen Sheryl Sund. Halftime entertainment included S.H.S. band, flag corps, and drill team along with the three winning floats of the Homecoming Parade. With a tremendous win over the Tumwater T-Birds, Shelton's Homecoming came to a close with a dance, music provided by Jubal Lee.

## Sunshine

Dimmed lights and florescent decorations adorned Mt. View gym for the annual semi-formal tolo. The festive occasion was well attended by the Highclimber social set. All couples in attendance looked radiant dancing to the tinkling melodies of that ever popular, "Back Porch Revue". Boogie music began at 8:00 p.m. and quit promptly at 11:00 p.m. so the couples could go home and get their beauty rest.

## Interim 1974

## INTERIM

Interim was a system of mini-courses between the semester break in January. The courses ranged in variety from pool to girls automechanics, to pottery. Interim was a program sponsored by the high school Senate. The committee consisted of equal numbers of students and teachers. The program lasted one week and was participated in by the entire faculty and student body. People from the community were brought in to teach classes. The program was well received and hopefully will be continued in years to come.

# Feast

FEAST is a co-educational program designed to introduce and train students in the skills and techniques necessary for employment in the Food and Hospitality industry. I feel the opportunities available to students in FEAST are unlimited and as such can provide an avenue to employment directly out of high school into a field that is in demand of good qualified workers.

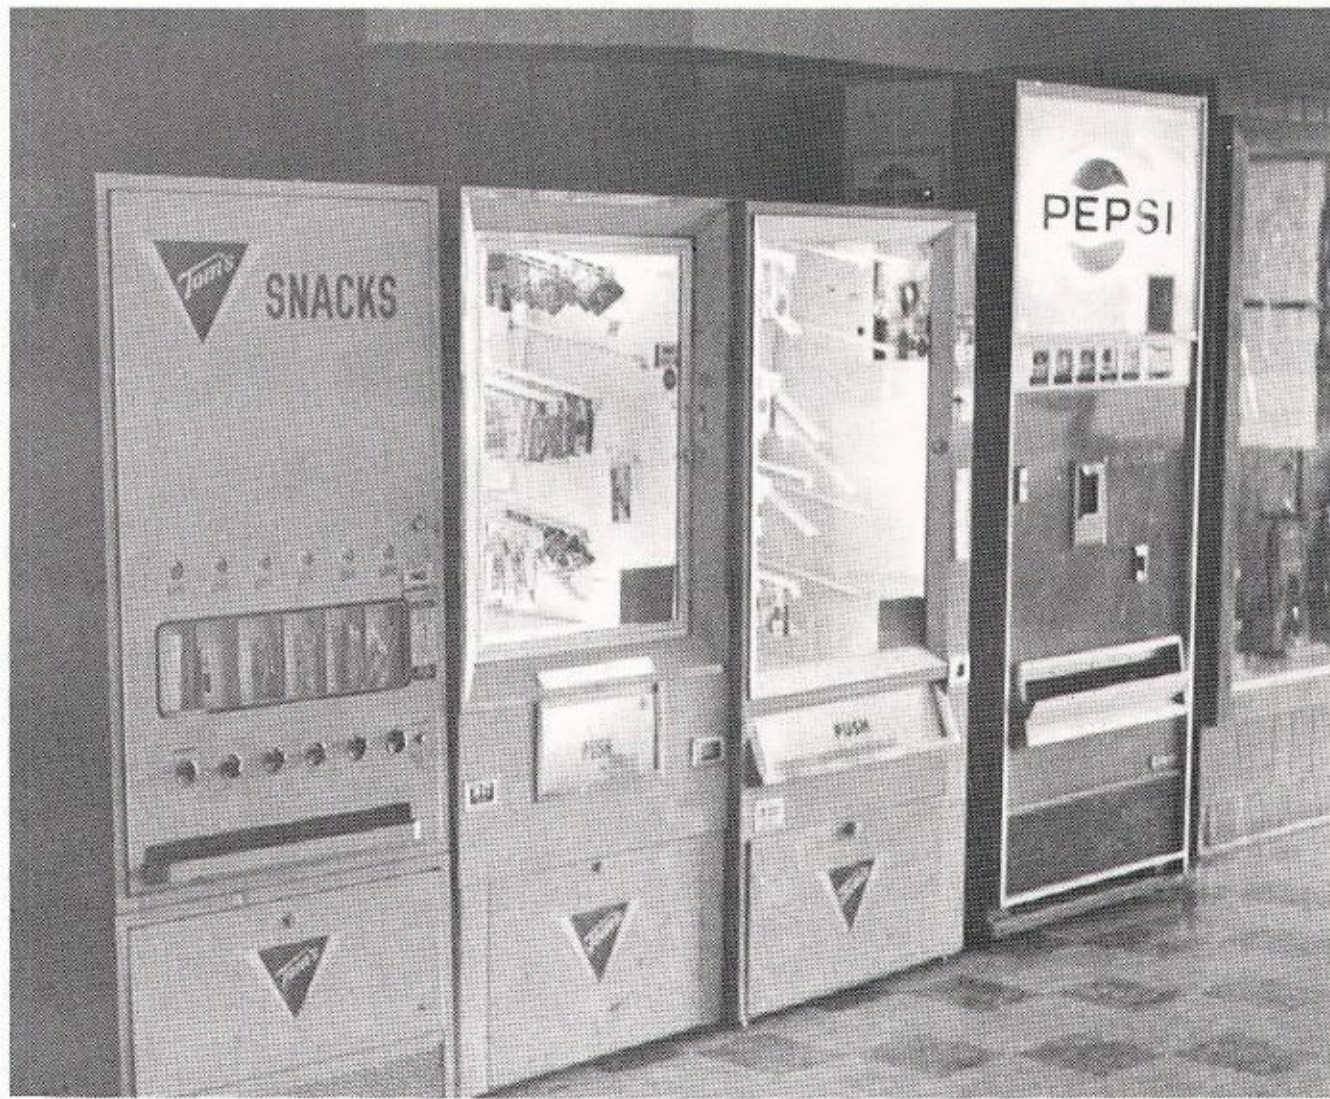

The first year of FEAST has been successful. Students enthusiasm has been generated from the nature of the course which enables them to assimilate on the job training in the classroom. I feel this factor makes the student more aware of the relevance of his total education.

## Golf '74

This year's Highclimber Golf team was one of the best ever and finished the season with an 8-3 record and 2nd place for AA Black Hills League schools. Two of the three losses were to AAA schools. The season was highlighted by winning the sub-district championship.

Only one of the first five graduates, so the Highclimbers have the potential for another fine team next year.

The honey wind blows,  
and the days grow colder.  
Somehow the world and I  
have grown just a little bit older.

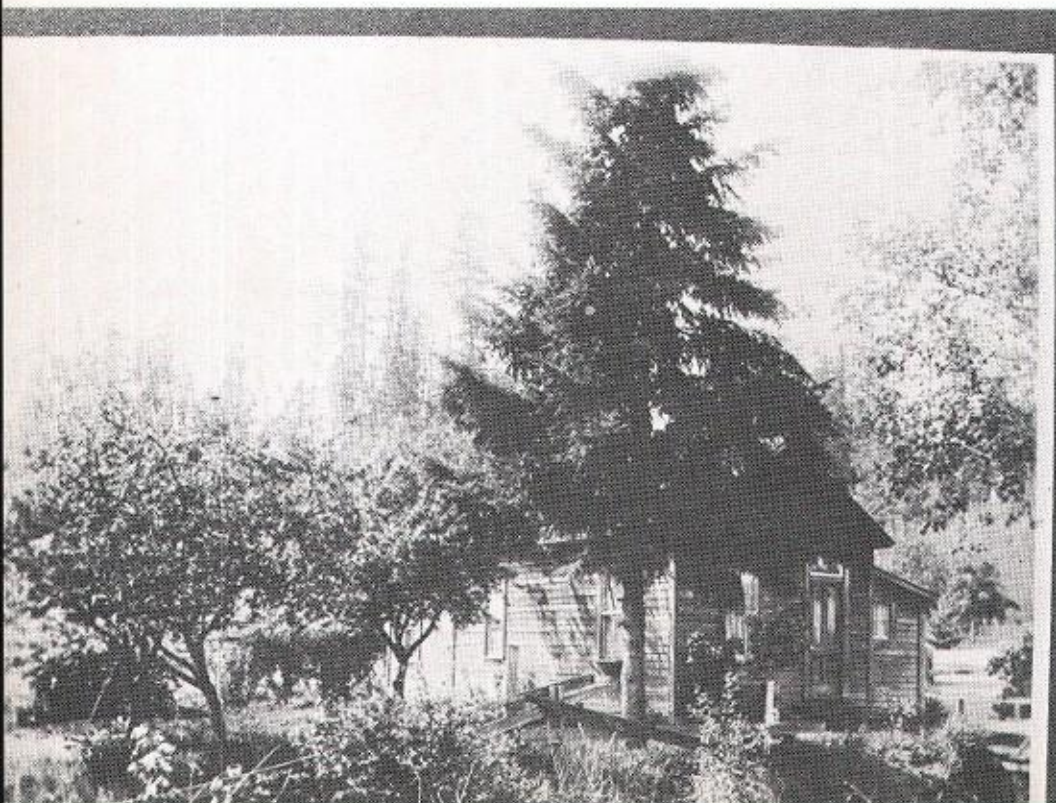

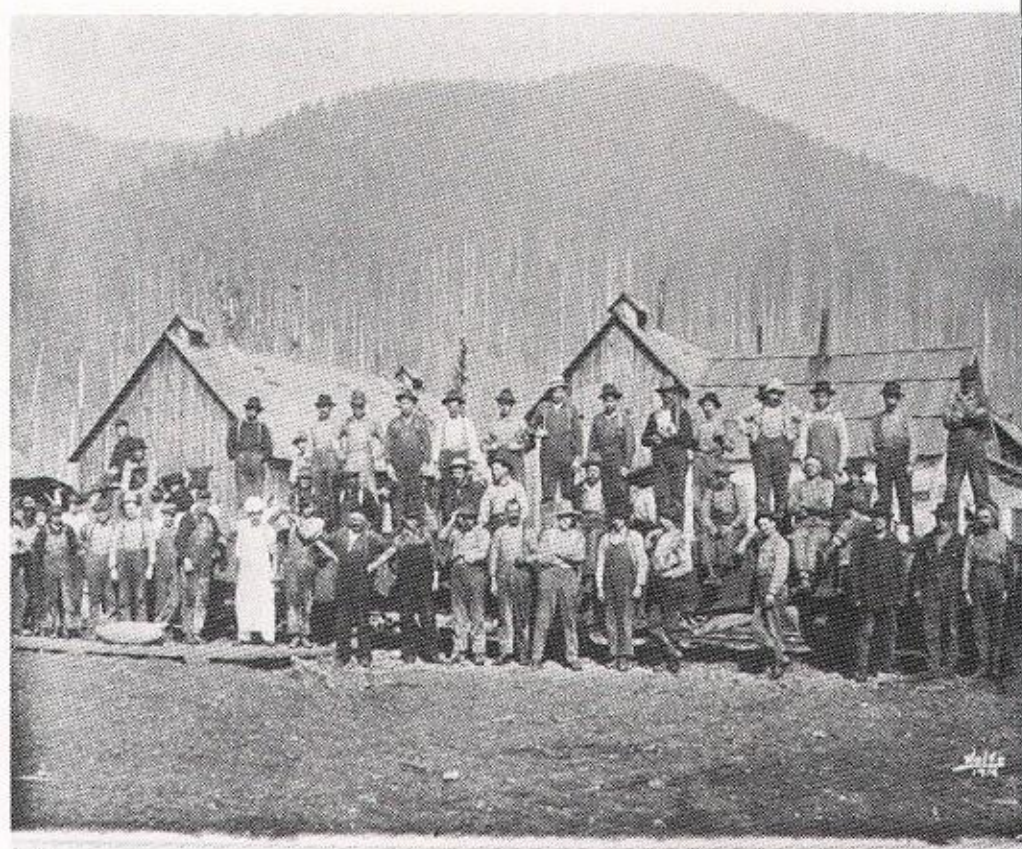

so hurry sundown,  
Be on your way  
Weave me tomorrow  
Out of today.

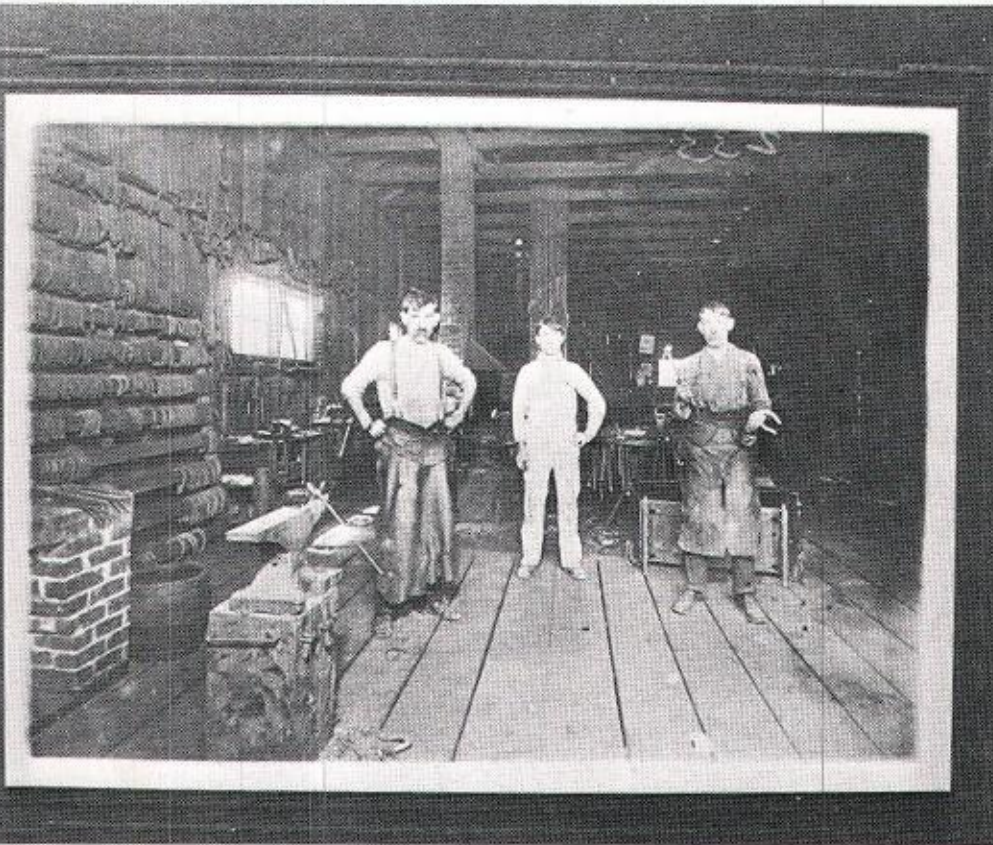

I will not follow  
 where the path may lead,  
 but I will go where there is no path,  
 and I will leave a trail.

We plant up to 10 times more than we cut, to conserve the cycle of the living forest.

## We sow more than we reap.

Conservation of natural resources—one of America's most pressing priorities—has been a way of life at Simpson since the old days of cut-and-get-out forestry.

Even when people were few and the forests of the Pacific Northwest seemed limitless, Simpson began a policy of nurturing second growth on logged-over land.

Because we considered the forests as home for recurring generations of trees.

In fact, we now grow

more each year than we harvest. Our forest management practices have greatly accelerated nature's growth—up to 50 per cent in some areas.

Conservation is the key to the modern forest, with many generations of maturing Douglas fir. Conservation of the forest, its crop, its animal habitat, its recreational areas. And conservation of the economic base of the area.

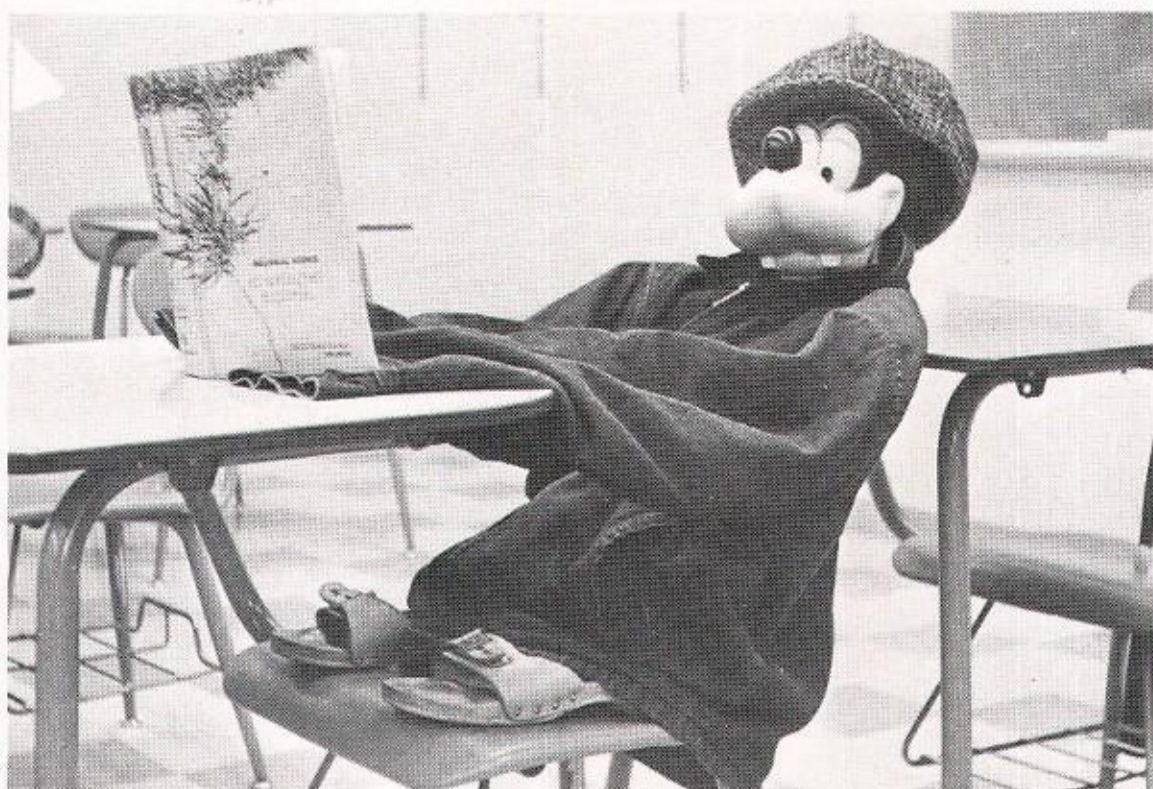

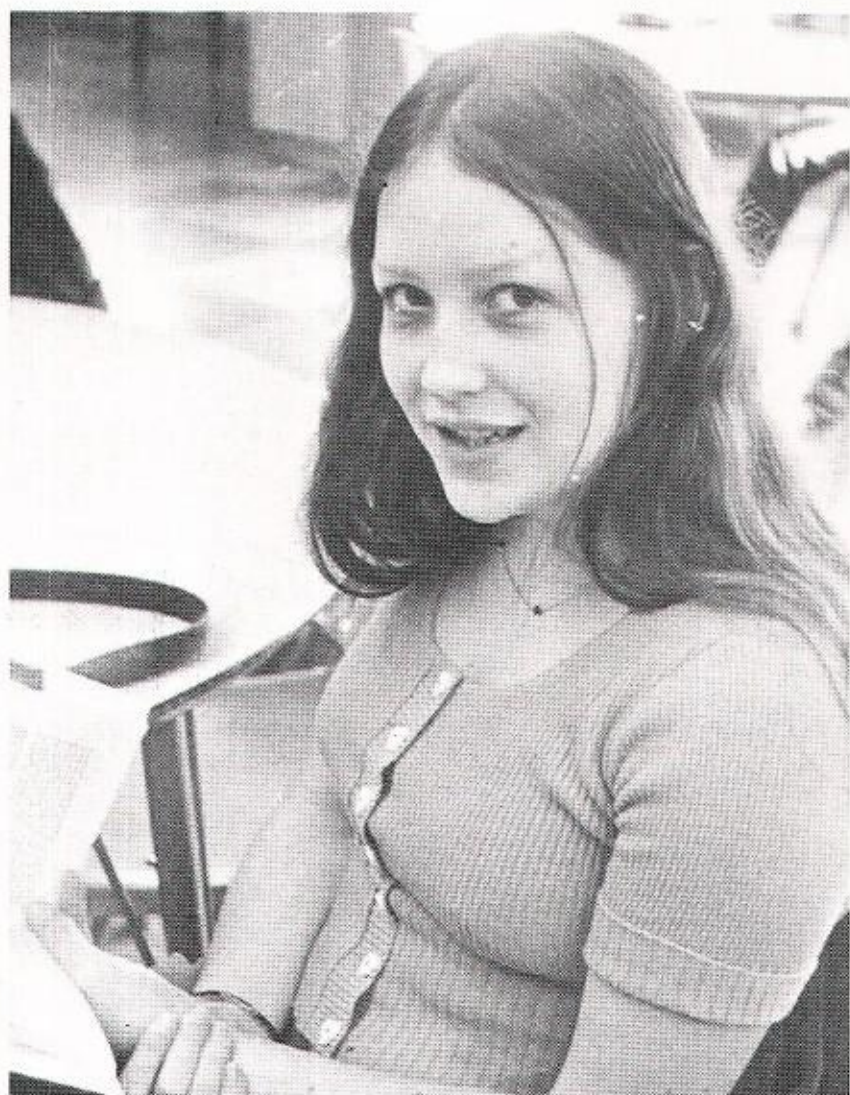

In the long run, you reap what you sow.

A mighty good argument for practicing conservation.
